Laboratories

Digital Management System Lab

The Digital Management System Laboratory is equipped with state of the art computers and latest software such as SPSS, AMOS, and provides access to professional databases such as Prowess, CMIE. The lab is mainly utilized by the MBA and Ph.D students for the practical classes of subjects such as Research Methodology and Statistical Packages, Computer Applications for Business, Operations Research and Professional Decision Modelling and Quantitative Analysis.

Behavioural Dynamics Lab

The Behavioural Dynamics Laboratory has been designed to hone the communication, leadership and decision making skills of students through Presentations, Mock Interviews and Group Discussions, to enhance their overall personality. It is also utilized for conducting various departmental activities such FDPs, Placement Drives, Management Games, Quizzes and Debates. Telecast of important economic and business events like the Union Budget with the help of audio-visual aids is also an important feature of this lab.

Research Lab

The Research Laboratory is a dedicated facility provided to the research scholars of the department working in different areas of management. The lab provides access to all the major e-resources and scholarly databases such as E-Shodh Sindhu Consortium, National Digital Library of India (NDLI), Online Public Access Catalogue (OPAC), Scopus, and Science direct etc procured through the central library of the Institute.
